

NATIONAL ENERGY CORPORATION  
OF TRINIDAD AND TOBAGO LIMITED

# Registration of Consultants for Energy Services to Africa

NEC is in the process of building a database of energy-based consultants which will be used to provide services for countries developing their energy sector in the African Continent through joint initiatives between the Government of the Republic of Trinidad and Tobago and individual territories.

The Company is requesting suitably qualified individuals and/or consultants with experience and expertise in the following areas to submit their profiles for inclusion in the database:

- Energy Policy Development
- Energy Planning
- Strategic Planning
- Strategic Management
- Infrastructure Planning and Development
- Marine Infrastructure Design and Construction
- Industrial Estate Planning and Development
- Pipeline Infrastructure Design, Planning and Development
- Natural Gas Processing
- Natural Gas Infrastructure Design, Planning and Development
- Natural Gas Extraction Techniques
- Refinery Infrastructure and Development
- Renewable Energy Project Planning and Development
- Project Management
- Energy Related Legislation
- Power Generation Project Design, Planning and Development
- Local Content Policy and Development

**Kindly email detailed profiles to [Africainitiative@nec.co.tt](mailto:Africainitiative@nec.co.tt) no later than December 29th 2011**
